UNION COUNCIL OFFICER

If elected, I promise to:

Continue the pressure on the Oadby Sports Development Initiative, pushing through the University's proposals for an overhaul of the current sports facilities at Oadby.

Create new links of communication with students disconnected with the Students' Union and establish better opportunities for these students to become more involved, eg distance learners.

Ensure that green issues are still kept high on the agenda so that when the new building work for the Students' Union begins the building becomes as sustainable and ethical as feasibly possible.
