

Manifesto

Chris Welch

As a Union Council Officer I aim to:

- Increase participation and awareness of less popular sports, especially during Varsity time in which such sports often have little attention. By increasing awareness of these sports, large events such as Varsity can become a generally more exciting time for every club.
- Increase awareness of the dangers of using Victoria Park at night, in order to decrease the number of incidents.
- Encourage the use of e-mail and the internet to promote union events
- Introduce more maps or perhaps guides to the university, so people know where the main facilities on campus are; for example, the welfare office is a pivotal service vital for student development that students should be aware of.

Why you should vote for me:

- I have sat on the Union Council this year and have developed an understanding of how the council operates
- By sitting on the council I have been made aware of what are some of the more pressing student issues. I have also learnt the best ways to go about addressing these issues.
- I was a Fresher's rep last term as well as being a social secretary now, I therefore have interacted with many students helping me learn how to be approachable and open to a variety of view points.
